

The World Genius Directory Listing Guidelines

The general population of our world trusts the World Genius Directory. As Editor, I have had to create an ethical framework to ensure integrity. As such, visual PDF/JPG confirmation from the test author or psychologist is the standard. All updates must be from the same with the same visual proof. We have [our website](#) and [our FaceBook](#) and it is important that the standard is clear and high for all to see. Only first submissions are accepted. Listees in the WGD are entitled to list their IQ Tests and IQ Publications. Three listings per person are permitted: psychologist tests, high-range tests and a supercategory.

TO LIST IN THE WGD YOU MUST SEND IN THESE 3 THINGS:
