TRUTHS

Learning is pleasurable - if taught well - and properly.
Individual attention and care is essential for education.
A good education teaches the hows and whys, not whats.
Personal education is the time-tested and proven method.

WHY PAY

You are paying for ideas, ideas you cannot find yourself.
You are paying for inspiration - and genius - and results.
You are paying for quality of thinking, effective/efficient.
You are paying for improvement: demonstrated and real.

CURRENTLY

Children are not being taught well-enough; in fact,
gifted children - especially - are the most-neglected,
for individual attentions and superior-IQ stimulation;
plus the shortage of science and mathematical expertise.

UNMET NEEDS

Was your special child excited in February but aloof in May?
Is your child intelligent, but bored at school/losing interest?
Is your gifted child irritable and unhappy returning home?
Does your child complain about the lack of school content?

FULFILLED NEEDS

Your child will tell you, very clearly, that they love learning.
They wish and want to share their learnings with you, now!
They wish and want and desire to learn more as enjoyment.
Your child is happy, stimulated and excited returning home.

REASONING THOUGHTS

Get your child to be a genius. Slowly, but surely, it happens.
Progress is constant, but incremental, and always forwards.
Family participation and involvement is a firm requirement.
Weekly readings, projects and assignments are compulsory.

WEDNESDAY AFTERNOON PROGRAMME (4pm-7pm) • Collection 7:05pm-7:15pm.

4:00pm	Arrival	The classroom is open for students to arrive and eat
4:30pm	Feedback	Formal Start - Feedback and Weeks' Review & Works
5:00pm	Theory	Lesson 1 - Thinking, Language, Philosophy and Virtue
5:30pm	Application	Lesson 2 - New Scientific and Mathematical Concepts
6:00pm	Experience	Lesson 3 - Genius Creators' Makers Applied Workshop
6:30pm	Ending Review	Class ends after a brief review and homework is given.

LAST SATURDAY OF EVERY MONTH • SKILLS WORKSHOP AND FAMILY MOVIE NIGHT

3pm-6pm	Mental, Emotional and Physical Lessons with Group Exercises & Discussion
6pm-7pm	Families Arrive for Pizza/BYO Picnic Dinner (all family members welcome)
7pm-9pm	Movie Night [G]. This will vary from 60 to 100 minutes, suitable for all ages.

Examples of the lessons would include: communication, conversation, presentation skills, self-analysis of emotional and mental states, body movement, awareness and reactions, listening skills, body language, confidence and posture, voice projection and expression.

Monthly Saturdays are optional but recommended and create a space for new friendships. It is also an opportunity for students to show their skills, learnings and friends to family. There is no extra charge for Saturdays and is great added-value of academy membership.

MISSION

To teach your child to think and act like a genius by a certified genius - and discover and grow their potential, with weekly progress and observable results, in just 80 hours/year.

ACCREDITATION

The Jason Betts Genius Academy is a private and independent institution, accredited with the Order of the Mystic Rose (Inc, Tas; 1998) under the Tasmanian Associations Act 1964. All graduands and certificates, diplomas and doctorates are included in their annual audit. Mystic Rose also empowers Dr Betts with his Marriage Celebrant Registration (1999) and teaching accreditation for the Diploma of Metaphysics and Doctorate of Divinity program.
